

Veratti® M50™

ANSI Z87.1-2010
High Impact
CSA Z94.3-2007

09602000
Prescription Insert

The Veratti® M50 mini goggle offers the same protection as a regular safety goggle in a compact, sleek design. Small but tough, the Veratti® M50 will drive compliance in the workplace. Ergonomically designed to fit all faces, the seal around the face is ensured by the flexible frame and the rotating strap protecting the eyes from chemical splashes and flying particles. The ENFOG® coating and the ventilation on the top, bottom and side limit fogging to allow the user to see everything in total clarity.

Incredibly lightweight the Veratti® M50 is comfortable all day long.
